

REMARKS

Specification and Abstract

In response to the Notice to File Corrected Application Papers dated February 25, 2005, Applicants have substituted the originally filed specification and abstract with the substitute specification and abstract provided in the attached Appendix A. The substitute specification adopts the line spacing required by 37 CFR 1.121(b)(3) and includes paragraph numbers. No other changes have been made. Changes in line spacing and the insertion of paragraph numbers do not constitute added or subtracted text that must be shown in a marked up copy of the specification pursuant to 37 CFR 1.125(c). Accordingly, Applicants have only supplied a clean copy of the substitute specification. Applicants submit that the amendments to the specification do not introduce new matter.

Status of the Claims

Claims 1-79 are cancelled herein. New claims 80-186 are pending. Support for claims 80-186 can be found in the claims as originally filed. Accordingly, the foregoing amendments raise no issue of new matter.

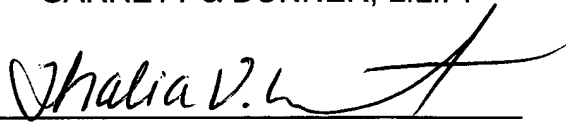

Conclusion

Applicants now await an action on the merits. If there is any fee due in connection with the filing of this Preliminary Amendment, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
